If it's Water, Inc.  
2090 Bondsville Road  
Downingtown, Pa 19335

Dear Bill McTear:

Since having our UV system installed by "*If it's Water*" this past December two things immediately have happened. First, our air quality has improved and the presence of chloramines has been greatly reduced. Next and probably the most important, is being assured & having the peace of mind that Cabrini's College is doing everything to ensure the safety of its swimmers.

With our facility catering to multiple groups with various needs, having that additional layer of sanitation is worth it.

I must also speak how impressed I was with "*If it's Water*" customer service and installation of the system. They were more than happy to answer any questions we had and also spent a good deal of time delivering information relating to the system and the pool, which made our aquatics personnel really comfortable with the UV introduction. Even with our existing space and not many options, the installation was neat and meticulous. We couldn't have asked for a better company!

Sincerely,

A handwritten signature in black ink that reads "Derek Kay". The signature is written in a cursive style with a large, looped "D" and "K".

Derek Kay  
Aquatics Coordinator/Asst. Swim Coach
