## THE FINE PRINT

---

*We're not "fine-print" kind of guys, but we did want to point out a couple of things.*

*Pricing: The pricing in this catalog is current as of December 1, 2023 – the day we sent it to the printers. In an effort to save a couple of trees we've decided to publish a new catalog every 2-3 years rather than every year. Please keep in mind that all items that are subject to a price increase during this period. To keep the lawyers happy here is our fine print. "Pricing subject to change without notice". If you need exact pricing, please don't hesitate to call us.*

*Payment Terms: Most items are sold on Net 30 terms from date of invoice. If you have special circumstances that would require something different, please call us and we'll be glad to work with you. If you want to use a Credit Card (VISA, MC, AMEX, Discover) when phoning in your order that'll work, too. Please note: credit card payments made more than 10 days after invoice issuance may be subject to a 3% convenience charge.*

*Shipping: Prices shown in our catalog do not include any shipment charges. These will be added to the invoice.*

*Credit: If you would like to establish an account, give us a call. We'll be happy to set one up for you. Our Credit Application can be found on our website.*

*How to buy from us: Phone, fax, e-mail – whatever is easiest for you.*

## Why you should buy your chemical controller from If It's Water:

- If It's Water is the region's leader in chemistry controller sales and service. For over 30 years we've installed and supported thousands of units in all types of commercial aquatic environments.
- Every item we sell - we have in stock. That includes complete systems, spare parts and all accessories. There is no long lead times when placing your order.
- Every member of our staff is factory trained and certified on all of the chemical controllers we offer.
- We offer professional installation services and end-user training with all controller purchases.
- Our controllers can be used on any size pool, spa, fountain, aquarium and even zoo exhibits! Price includes flow cell, safety flow switch and sensor probes.
- \* Your internet company offers zero tech support.

## The Pool Warden

The IDEAL solution for migrating from the AK-110.

Easy to use but very advanced. The PoolWarden is a water chemistry control system with capabilities to control the pH and sanitizer of any sized body of water. In addition to pH and sanitizer feeding, the PoolWarden has 2 auxiliary dry contact relays that can be used to control backup sanitizer, enzyme feeders or salt systems.

For remote access, the PoolWarden has advanced communication and comes standard with Ethernet, WIFI, USB and Bluetooth which allows for operation via a smart phone, tablet or PC from anywhere an internet connection is available.

Optional Gold ORP probes are available for saltwater pools & spas.

ITEM	PRICE INCLUDES	PRICE
PW Controller	Controller, flow cell, safety flow switch, sensor probes and electrical pigtails.	\$3,650.00

## Blu-Sentinal SE

The Blu-Sentinel SE controller is a state-of-the-art disinfection controller that measures the pool water's free chlorine concentration, temperature as well as the ORP and pH values. The controller provides chemical feed outputs to a variety of chemical feed devices to control and maintain sanitizer and pH setpoints.

Four analog 4 – 20 mA outputs and five digital inputs are standard. Six freely assignable relay contacts are also available that can be configured as chemical feed outputs or alarm contacts. The SE comes standard with an Ethernet port for network connection and remote monitoring.

The intuitive user interface with its 4" glass panel color touch display makes setup and operation of the controller much easier when compared to conventional LED displays.

The SE includes a pressurized flow cell with 3 sensors, pH, ORP and PPM. The flow cell includes an LED light stick (blue, yellow, red) which indicates the pool water chemistry status from a distance.

ITEM	PRICE
BS-SE	\$6,900.00

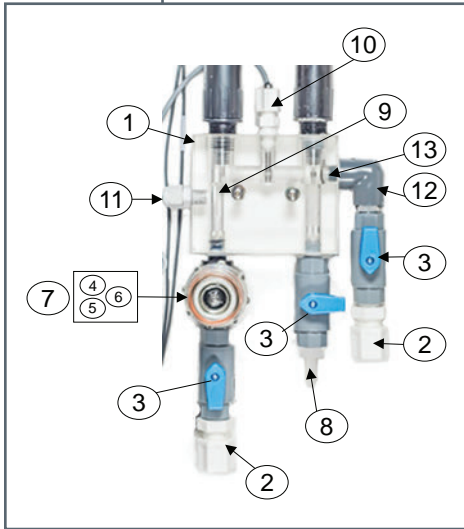

## Sensor Probes and Cables

PART NUMBER	DESCRIPTION	MODELS FIT	PRICE
AK-ORP	ORP Probe / Red / No Cable / BNC Connector	- PoolWarden - AcuTrol - Pentair - Some TSI	\$310.00
AK-PH	pH Probe / Blue / No Cable / BNC Connector	- PoolWarden - AcuTrol - Pentair - Some TSI	\$310.00
AK-GOLD	ORP Probe / Black / No Cable / BNC Connector. To be used on Salt Water Pools.	- PoolWarden - AcuTrol - Pentair - Some TSI	\$345.00
AK-BT-R10	Probe Cable, ORP, Red, BNC to Wire, 10'	For use with AK-ORP and AK-GOLD Sensors	\$35.00
AK-BT-B10	Probe Cable, pH, Blue, BNC to Wire 10'	For use with AK-PH Sensors	\$35.00
BJ-ORP10	ORP / HRR Probe with 10' Cable	- Blu-Sentinel Basic - Cat - Stranco - BECS	\$310.00
BJ-PH10	pH Probe with 10' Cable	- Blu-Sentinel Basic - Cat - Stranco - BECS	\$310.00
BSSE-ORP	ORP Sensor / Blue (PLATINUM)	Blu-Sentinel SE Blu-Sentinel PRO	\$400.00
BSSE-PH	pH sensor (Yellow)	Blu-Sentinel SE Blu-Sentinel PRO	\$400.00
BSSE-PPM-PLAT	PPM Chlorine Sensor / Free Chlorine - PLATINUM	Blu-Sentinel SE Blu-Sentinel PRO	\$400.00
BSSE-PPM-GOLD	PPM Chlorine Sensor / Free Chlorine - GOLD	Blu-Sentinel SE Blu-Sentinel PRO	\$550.00

## Calibration Solutions

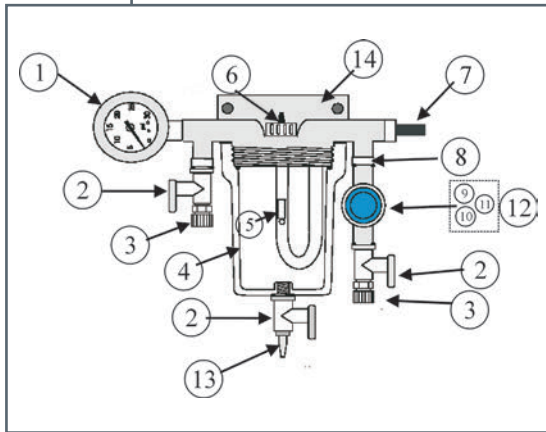

PART NUMBER	DESCRIPTION	PRICE
BS-CAL-KIT	Blu-Sentinel Calibration Solution Kit Consists of (3) 12-ml ORP 478 Solution (3) 12-ml pH 4.65 Solution (3) 12-ml pH 7.00 Solution (1) Electrode Cleaning Sand	\$35.00

## Pool Warden Flow Cell Fittings

ITEM #	DESCRIPTION	PART #	PRICE
	Complete Flow Cell Assembly	PW-FlowCell	\$400.00
1	Acrylic block only, no fittings	PW-FlowCellBlk	\$200.00
2	Fitting - 1/2" OD x 1/4" NPT	P8MC4	\$5.50
3	1/4" Ball Valve	AKBV	\$15.00
4	Filter Body Only	AKFB	\$41.00
5	Filter cover with O Ring	AKFC	\$14.00
6	Filter Screen - Stainless Steel	AKSS	\$9.00
7	Filter Assy (parts 4,5,6)	AKFASC	\$60.00
8	Test Barb	AKTB	\$9.00
9	Flow cell flow sensor magnet	PWMAG	\$11.00
10	Temperature sensor, SS body, 3 foot cable	PW-T10K-3ft	\$60.00
10	Temperature sensor, SS body, 10 foot cable	PW-T10K-10ft	\$70.00
11	Flow sensor with detector, 1/4" with 3 foot cable	PW-Flow3	\$60.00
11	Flow sensor with detector, 1/4" with 10 foot cable	PW-Flow10	\$70.00
12	Fitting 90-degree Elbow	AK90	\$2.90
13	Fitting 1/4" Threaded Nipple	AKNP	\$2.75

## Acutrol Flow Cell Fittings

ITEM #	DESCRIPTION	PART #	PRICE
1	Pressure Gauge	AKPG	\$6.30
2	1/4" Ball Valve	AKBV	\$15.00
3	Fitting - 1/2" OD x 1/4" NPT	P8MC4	\$5.50
4	Jar Only	AKJJ	\$236.00
5	Flow Cell Magnet	AKMG	\$28.00
6	Flow Switch w/ Magnet	AKFS	\$125.00
7	Temperature Probe	AKTMP	\$125.00
8	Nipple - 1/4" NPT	AKNP	\$2.75
9	Filter Screen - Stainless Steel	AKSS	\$9.00
10	Filter cover with O Ring	AKFC	\$14.00
11	Filter Body Only	AKFB	\$41.00
12	Filter Assy (parts 9,10,11)	AKFASC	\$60.00
13	Test Barb	AKTB	\$9.00
14	Molded Top	AKMOLD	\$137.00
	Entire Flow Cell	AKFCELL	\$973.00

## BLUE SENTINAL FLOW CELL PARTS

## BS-STR-COMP

Strainer assembly. Includes ball valve, Y-Strainer and strainer filter insert

BS-STR-COMP

\$280.00

## BS-STR-FTG

Support bracket for the Blu-Sentinel flow cell. Includes bracket, spacer, stainless steel screws and plastic anchor

BS-STR-FTG

\$36.00

## BS-FC-PRV

Pressure Relief Valve is used to relieve the pressure within the flow cell when adding or removing any of the 3 probes

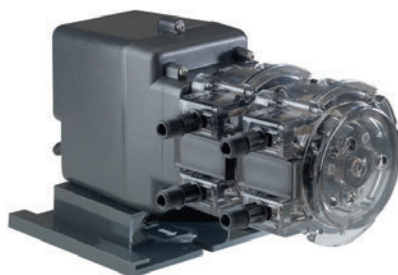

BS-FC-PRV

\$135.00

## Stenner Fixed Rate Pumps

Single Head Fixed Rate  
Feed Pump

Double Head Fixed Rate  
Feed Pump

The perfect pump for use with our automatic chemical controller. These pumps are available in 50 Gallon Per Day (GPD), 85 GPD and 170 GPD configurations. Additionally, by simply changing the feed tube you can easily change your pumps output capacity. See the Feed Rate Tables below for specifications.

### Series 45 / Single Head - Fixed Rate

PART #	TUBE SIZE	GPD / GPH	PRICE
STP-45MP1	#1	3.0 / 0.1	\$474.00
STP- 45MP2	#2	10.0 / 0.4	\$474.00
STP- 45MP3	#3	22.0 / 0.9	\$474.00
STP- 45MP4	#4	35.0 / 1.5	\$474.00
STP- 45MP5	#5	50.0 / 2.1	\$474.00

### Series 85 / Single Head - Fixed Rate

PART #	TUBE SIZE	GPD / GPH	PRICE
STP- 85MP1	#1	5.0 / 0.2	\$474.00
STP- 85MP2	#2	17.0 / 0.7	\$474.00
STP- 85MP3	#3	40.0 / 1.7	\$474.00
STP- 85MP4	#4	60.0 / 2.5	\$474.00
STP- 85MP5	#5	85.0 / 3.5	\$474.00

### Series 170 / Double Head - Fixed Rate

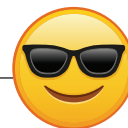

PART #	TUBE SIZE	GPD / GPH	PRICE
STP- 170MP5	#5	170.0 / 7.08	\$671.00

### Benefits

- Self priming / retains prime.
- Can run dry without damage
- Inexpensive and durable – in one product.
- Output can be changed by simply replacing the feed tube. See output tables for specifications.
- Chemical does not come in contact with the pump or any pump parts.
- Adjustable and fixed rate models to choose from.
- Simplicity. Keep it simple silly.
- Outputs ranging from 3.0 gallons per day to 170 gallons per day.
- Use your Stenner pump to feed chlorine, acid or enzymes.

### Helpful Hints

- Ensure your tubing runs and injection points are clear of mineral deposits.
- Replace pump tubes twice a year and your pump head once per year..
- These pumps are so inexpensive that you should keep a spare pump on the shelf. As reliable as these pumps are – don't they always fail the Friday night of July 4th weekend?
- Size your pump for your pool – call us for assistance.
- Once per year, send your pump to If It's Water for factory authorized service. Our technicians will inspect your pump, replace worn parts, lubricate the gear and shaft assembly, and install a new tube. This inexpensive preventative maintenance usually can be accomplished within 24 hours.

## Stenner Adjustable Rate Pumps

Single Head Adjustable Feed Pump

Adjustable pumps are ideal for conditions where manual control is required. The patented mechanical feed rate control allows the pump's output to be scaled from 5% to 100% with a simple turn of the dial. Consult output charts below for specific settings.

Double Head Adjustable Feed Pump

Note: All of our pumps ship standard with the 1/4" Accessory Kit which includes:

- Connecting Nuts.
- Ferrules.
- Injection Fitting (25 psi).
- Spare Pump Tube.
- Mounting Bracket.
- Suction Line Strainer with Weight
- 20' Roll of 1/4" Suction / Discharge Tubing.
- Installation and Maintenance Manual.

Add on the STA-AK600 Flow Indicator for \$31.00 to quickly verify product is flowing smoothly.

## FAST FACTS

- If It's Water is very proud of the fact that we were one of the early pioneers in using CO<sub>2</sub> as a safe alternative to acid. Since 1989 we have installed over 2,000 units to date without a single accident reported.
- When dissolved in water, carbon dioxide reacts to form a carbonic acid. These react with alkaline solutions to reduce the pH to a more desired level. It's that simple, and that safe.
- CO<sub>2</sub> allows you to control your pool's pH safely. No handling of acid, no mixing or pouring of chemicals, no eyewash stations and no fumes! CO<sub>2</sub> will not corrode your mechanical room equipment the way acid does.
- CO<sub>2</sub>, because it increases total alkalinity, is an ideal solution for facilities where the source water has low alkalinity.

### CO<sub>2</sub> Feed Unit

Our CO<sub>2</sub> feeder incorporates a time proven design and a state-of-the-art valve to provide quality and reliability at a competitive price. Available in 0-30 SCFH models this feeder is perfect for any body of water using CO<sub>2</sub> for pH control. The feeder can be coupled with

our Switchover Switch for the ability to easily and quickly switch between CO<sub>2</sub> and acid feed systems.

CO2-3	CO <sub>2</sub> Feed Unit with Injection check Valve	\$950.00
CO2-4	CO <sub>2</sub> Injection Check Valve Kit	\$86.00

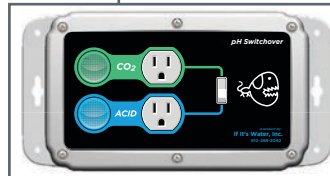

### CO<sub>2</sub> Single Tank Regulator

Our single tank regulators connect to your CO<sub>2</sub> cylinder to deliver a constant pressure of gas to your feeder. Output pressure rating is adjustable and is shown on one gauge. The second gauge shows tank level in PSI.

CO2-5	Single Tank Regulator	\$250.00
-------	-----------------------	----------

### pH Switchover

The If It's Water - pH Switchover Switch was designed to be used in applications where both CO<sub>2</sub> and acid are needed to control pH. The unit allows for a simple flip of switch

to change from using acid to CO<sub>2</sub>. There is no need to unplug one feeder and plug in a different feeder.

CO2-SWITCH	Acid/CO <sub>2</sub> Switch Over	\$375.00
------------	----------------------------------	----------

### CO<sub>2</sub> Dual Tank Regulator w/Auto Switch Over

Our dual tank switchover (with regulator) is a completely automatic gas cylinder changeover system that is non electric, foolproof and designed for easy installation and everlasting performance! You

should never run out of CO<sub>2</sub> again!

Eliminate the need for expensive, bulk CO<sub>2</sub> systems, our system allows you to connect to and feed from multiple CO<sub>2</sub> tanks. Our unit senses an empty tank and automatically switches to the next connected tank, allowing the operator ample time to switch out empty tanks.

CO2-DTR	Dual Tank Regulator w/ Auto Switch Over	\$1,225.00
---------	---	------------

## Replacement Pump Tubes

All Stenner tubes are in stock and ready for immediate shipment.

TUBE SIZE	UOM	PART #	PRICE
#1	Each	STA-ECCP201	\$25.00

## INJECTION FITTINGS

## 1/4" Injection Check Valve

STA-UCDBINJ	1/4" Inj. Check Valve (Each)	\$27.00
STA-MCDBINJ	1/4" Inj. Check Valve (5-Pk)	\$97.00

## 1/4" Injection Ball Check Valve

The all new Stenner ball check valve bypasses the "duckbill" design and instead uses a ceramic ball with stainless steel spring to act as the check valve. This is an ideal solution for acid injection. The ball check valve is rated up to 100 psi.

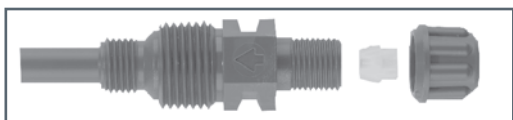

STA-BC014-1	1/4" Inj. Ball Check Valve (Each)	\$35.00
-------------	-----------------------------------	---------

## 3/8" Injection Check Valve

STA-UCINJ38	3/8" Inj. Check Valve (Each)	\$33.00
STA-MCINJ38	3/8" Inj. Check Valve (5-Pk)	\$132.00

Injection Fitting  
(No Check Valve or Duckbill)

STA-UCAK300	1/4" Inj. Fitting (Each)	\$16.00
STA-MCAK300	1/4" Inj. Fitting (5-Pk)	\$45.00
STA-UCAK400	3/8" Inj. Fitting (Each)	\$19.00

## 1/2" PVC Ball Valve Thread x Thread

PVC Ball Valve used when installing a Stenner Injection Point. Prevents back flow when servicing or changing your Stenner injector.

CODE	DESCRIPTION	PRICE
STA-1/2BV	1/2" Ball Valve Thd (Each)	\$35.00

## 1/2" Nipple

Schedule 80 PVC nipple used in conjunction with the 1/2" Ball Valve.

CODE	DESCRIPTION	PRICE
STA-1/2NIP	1/2" Nipple (Each)	\$4.00

## 1/4" Ball Valve MT x FT

Used on flow cells and injection points for pipe 2" and less.

CODE	PRICE
AKBV	\$15.00

## CO2 Injection Check Valve Kit

CO2 injector comes complete with Fast & Tite fitting, check valve, and body with diffuser. We pre-assemble these units for your convenience. Recommended to change once per year.

CO2-4	CO2 Injection Check Valve Kit	\$86.00
-------	-------------------------------	---------

## Way Cool

Easily determine the health of your chlorine injector by adding a flow indicator. Install in-line with your chemical tubing and get a quick visual confirmation that delivery is being made. Also acts as a check valve.

We stock all the tubing and fittings that you'll need for your chemical lines, CO2 lines and sample stream lines. Call today before noon and you'll have them tomorrow.

### Magic Lube

Magic Lube® is a PTFE based, multipurpose sealant/lubricant that can be used in both wet and dry environments with a temperature range of -10° to 425°F.

It forms a durable, adhesive film that prevents contact, even under severe shock loads.

It is chemical resistant and compatible with most metals, rubbers and plastics. It is commonly used on motors, o-rings, gaskets, threaded fittings, bearings, water filters and much more.

**Magic (11.5 OZ Tube) \$18.50**

### Polyethylene Tubing

#### 1/4" OD polyethylene tubing,

Used with Stenner Pumps for chlorine and acid lines.

**STA-TUBE14 (Roll 100') \$41.00**

#### 3/8" OD polyethylene tubing,

Used with CO2 feed systems. Sometimes used for chlorine feed with Stenner pumps.

**STA-TUBE38 (Roll 100') \$48.00**

#### 1/2" OD polyethylene tubing,

Used for sample stream lines to and from the controller's flow cell. Can also be used for chlorine injection on large pools.

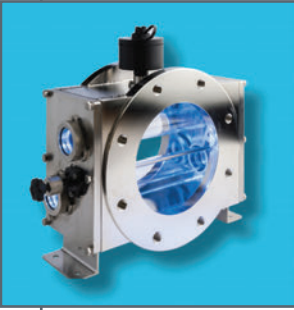

**STA-TUBE12 (Roll 100') \$53.00**

## MEDIUM PRESSURE UV SYSTEMS

### For the best results you need to partner with the best.

If It's Water has installed hundreds of UV solutions in pools ranging from 100 to one-million gallons. Our clients are diverse, ranging from small swim schools to NCAA powerhouses – and everything in between. Our diverse product lineup, and partnership with the leading manufacturers of UV products, ensures that we can provide an answer that will solve your problem, ensure patron comfort and safety and meet your budget needs.

**Give us a call. Ask for our installation list and feel free to call other end users who have experienced the impact of our secondary disinfection solutions. You will discover that leading technology, coupled with If It's Water's premier service and support allows you to make a big decision that much easier.**

**Our all new Wafer systems pack a lot of power into a much smaller footprint than our previous systems, making installations (new or retrofit) simpler.**

### UV SIZING CHART

PIPE SIZE	MODEL	LAMPS	POWER REQUIRED	DESIGN FLOW RATE
2.5"	ECP-113-5SPV	1*1.3kW	220V 1PH	176 gpm
3"	WF-115-3-N	1*1.5kW	208/240V 1PH	211 gpm
4"	WF-115-4-N	1*1.5kW	208/240V 1PH	361 gpm
6"	WF-125-6-N	1*2.5kW	208/240V 1PH	616 gpm
6"	WF-215-6-N	2*1.5kW	208/240V 1PH	810 gpm
8"	WF-215-8-N	2*1.5kW	208/240V 1PH	1012 gpm
8"	WF-225-8-N	2*2.5kW	208/240V 1PH	1386 gpm
10"	WF-230-10-N	2*3.0kW	480V 3PH	1980 gpm
12"	WF-430-12-N	4*3.0kW	480V 3PH	3080 gpm

*Alternate voltages available - contact us for details.*

Our UV systems are third party tested and certified to meet

- \* Model Aquatic Health Code requirements for supplemental and secondary disinfection.
- \* 3 log (99.9%) cryptosporidium parvum in accordance with NSF 50 and the US EPA UV DGM
- \* NSF / ANSI 50
- \* NY State Code 6-3.24

**Call for a free ON-SIGHT evaluation and comprehensive proposal on any of our UV disinfection systems.**

### FAST FACTS

UV systems are the ultimate sanitizer. They destroy chloramines. Seriously, no more super-chlorinating, no more breathing problems, no more destruction of the steel components in your natatorium.

UV instantly destroys chlorine resistant bugs like cryptosporidium, MRSA, Legionella, Pseudomonas, Streptococcus, Hepatitis and more!

UV systems are chemically free, promoting a healthier and greener environment.

UV systems require little maintenance.

All of our staff are factory trained and certified.

We stock parts!! No long lead times!!!

There are several different models to choose from. We have UV units to fit virtually any size pool or spa.

## LOW PRESSURE UV SYSTEMS

Our Sentry ultraviolet light systems are leading the way to better and safer water. Their unique, forward-thinking design employs high output amalgam technology for better chloramine control and inactivation of chlorine resistant bacteria. Our systems are designed for commercial pools and spa's, and they pay for themselves through lower cost of operation in a long lasting system.

Our SAG models are available in schedule 80 PVC with 316L stainless steel interior, or full 316L stainless steel chambers, and flange sizes range from 2" – 8".

All models operate at 120v with a maximum of 12amps, making this line of UV systems very cost-effective to operate and maintain.

### Benefits of Sentry UV.

- Amalgam technology
- Improved water and air quality
- Reduction in chlorine consumption
- Reduction in water born bacteria
- 13,000 hour lamp life
- Patent pending quick disconnects
- 316L stainless steel chambers
- Schedule 80 chambers for small pools and hot tubs
- 120v power supplies on all models
- 254nm wave length for sterilization
- 185nm wave length for oxidation

PART #	CONSTRUCTION	POWER	SIZE	FLOW RATE
SAG-120-APVC	Schedule 80 Housing w/ 316L sleeve.	120 V, 1-ph	2"	61 gpm

Since our founding, If It's Water has been synonymous with "service". If we sell it, we will service it. We also invest a significant amount of money to stock spare parts in our Downingtown warehouse. Regardless if it's a chemical controller, Stenner pump, ADA lift, or a UV system – chances are we got the parts on the shelf. We've also invested in custom built vans to act as mini-warehouses while we are on the road.

Why? It's simple: you invest a lot of money purchasing equipment from our firm. We want to make sure you are 100% satisfied with that equipment during its entire life-cycle. When it goes down (it will go down, not gonna lie) you need to get back up and running ASAP to keep the swim team parents off your case.

These material investments, as well as our ongoing training programs, ensure that we can quickly and efficiently "service what we sell".

## The Wave 100

The Wave 100 is a highly efficient, fully automated cleaner for small to medium sized institutional pools up to 32 X 82 feet. The advanced gyroscopic system ensures accurate scanning for systematic coverage of floor, walls and water-line. The high-capacity filtration space captures dirt, dust and all other types of debris, leaving the pool surface sparkling clean after every use.

CODE	DESCRIPTION	PRICE
VAC-WAVE100	WAVE 100	\$4,470.00

## The Wave 80

The Dolphin Wave 80 highly efficient and has fully automated cleaning for small institutional pools. It's accurate scanning allows systematic coverage of the pool floor, walls and waterline. The high-capacity filtration space capture dirt, dust and other type of debris, leaving a clean pool surface after each use. The Wave 80 ensures heavy-duty cleaning performance with robust reliability for long-term effective operation.

CODE	DESCRIPTION	PRICE
VAC-WAVE080	WAVE 80	\$2,640.00

## The Wave 120

Put the power of two robots to work at once with this heavy-duty fully automated cleaner. The Wave 120 has dual brushing action, dual high-capacity ultra-fine filtration systems, and a sophisticated gyroscope. It expertly cleans the entire pool floor and walls with maximum effectiveness and efficiency. This professional cleaner is designed for pools up to 33 meters.

CODE	DESCRIPTION	PRICE
VAC-WAVE120	WAVE 120	\$7,300.00

## The Wave 140

Maytronics markets a new robot for the cleaning of swimming pools, the Wave 140, an intermediate model between the well-known Dolphin Wave 120 and Wave 200.

Gain heavy-duty pool and pool water cleaning performance with exceptional reliability. The CleverClean intelligent navigation offers complete cleaning coverage with multiple filtration options for removing large and fine debris in pools. Easy-to-use and easy-to-clean, it efficiently and effectively cleans large institutional pools up to 33 meters in length.

CODE	DESCRIPTION	PRICE
VAC-WAVE140	WAVE 140	\$7,500.00

### The Wave 200

Get the best value for your pool cleaning budget while gaining uncompromising professional cleaning performance, with the Maytronics Dolphin Wave 200 XL. This revolutionary institutional pool cleaner delivers long-lasting reliability and the best wall-to-wall cleaning in its class. Easy-to-use and easy-to-clean, it efficiently and effectively cleans large institutional pools up to 33 meters in length, regardless of shape or type, and provides a single-robot solution for multiple pool facilities. With fast and efficient operation, you can keep your pools open for business while minimizing cleaning downtime.

CODE	DESCRIPTION	PRICE
VAC-WAVE200	WAVE 200	\$9,900.00

### The Wave 300XL

The Wave 300 XL's top-of-the-line, professional pool cleaning performance meets the challenging requirements of large aquatic facilities. The Wave 300 XL, from Maytronics, is the ideal robotic cleaner for large institutional pools, Olympic facilities, water parks and other sites with pools up to 50 meters.

Designed for long-lasting reliability with daily operation, the Dolphin Wave 300 XL excels at heavy-duty dirt collection and delivers the best cleaning performance in its class. It works efficiently and effectively in any large pool, regardless of shape or type, including beach entry pools.

CODE	DESCRIPTION	PRICE
VAC-WAVE300	WAVE 300	\$13,900.00

Our sister company, **O'Neill and Sons, Inc.**, was founded specifically to meet the demand for timely and professional sales and repair services for automatic pool cleaners - or what we like to call "robots." This operation allows the staff of **O'Neill and Sons, Inc.** to focus 100% on your robot to get him or her (people love to name them!) back to you as soon as possible. Honestly who wants to vacuum their pool by hand?

We are a factory authorized service center for Maytronics, Dolphin, Aquaproducts and Aquatron lines of vacuum cleaners. In our warehouse we stock an extensive supply of parts for these robots - so much that we can build most of them from scratch. An ample supply of parts, coupled with knowledgeable service personnel virtually guarantees a very quick turnaround.

In addition to servicing units, our firm has an extensive inventory of new robots for sale. We stock not only the most popular commercial units - we also stock and sell a line-up of residential units. So if you happen to have a back yard pool and need a robot - give us a call.

**O'Neill and Sons, Inc. • Devin F. O'Neill • Phone: (610) 269-6712, Fax: (610) 269-2068 • O'NeillAndSons@gmail.com**

## FAST FACTS

- It's what we use. Our field service staff carries the Taylor K-2006C Test Kit. In fact, Taylor is the **ONLY** water testing product we use – and as such – that's all we sell. Why? Because we know it works.
- Taylor Technologies has been recognized as the leading "authority" in water testing products for over 75 years. Proven products deliver dependable results every time.
- If It's Water has been a stocking distributor of Taylor products for over 30 years. We not only stock the most popular pool and spa test kits – we also stock replacement reagents, comparators, vials, etc..

## TAYLOR TEST KITS

### You asked for it and we listened!

Introducing the Taylor K-5106-C test kit, designed by and sold exclusively through If It's Water. This kit is intended for the pool deck to test chlorine and pH levels. What makes this kit unique is that we cleared up the "clutter" of unnecessary reagents that go to waste. We supply what is needed for the daily tests. Also, the K-5106-C uses 2 oz. commercial reagents and is stocked with enough spare reagents to last a full season. Chlorine test is titration to improve accuracy and pH test uses the 2000 series comparator.

K-5106-C	The Lifeguard Kit	\$159.00

## Filtration solutions that help maintain water quality in your aquatic facility

Filtration is a key element of water treatment for swimming pools, water slides, splash pads, fountains, life support systems and other bodies of water found in aquatic facilities. At its core, the reason for filtering is simple; remove debris and other particles to keep water clean and safe, while reducing the demand for chemicals.

Neptune Benson has been manufacturing filters since 1956 and offer a full range of NSF-50 certified horizontal and vertical sand filters constructed from fiberglass, lined carbon and stainless steel. Made from superior quality materials to exacting manufacturing standards, our sand filters are renowned throughout the commercial aquatics industry for durability and long-life.

### SHFFG Series

Fiberglass filtration systems are both economical and long-lasting. Our SHFFG filters are engineered to the highest standards for strength and to maximize long term performance and operational integrity.

Designed with superior materials including all vinyl ester resin, schedule 80 PVC internal parts and solid fiberglass flange connections, our tanks provide long-term solutions to satisfy filtration needs. .

Our horizontal fiberglass tanks (SHFFG) come in a wide range of sizes to fit almost all installations. Our smallest is our 34" x 48" tank while our largest is the 60" x 168" monster. Designs can incorporate multiple tanks in either a stacked or side by side configuration with factory designed/fabricated facepiping supplied to simplify plumbing in-field.

### KEY FEATURES

- NSF 50 Listed
- Complete fiberglass construction including flanged connection .
- Deep sand bed design maximizes filter operating performance and backwash efficiency.
- 14" x 18" access manways with viewing windows.
- 15 year warranty.
- Numerous sizes and configurations available.
- Automatic backwash programming available as an option.

### Odyssey Filter

Odyssey filters provide a flexible solution for projects with limited space. This includes renovations or retrofitted projects. With tank top facepiping and forward facing manway covers, Odyssey can fit into spaces other sand filters simply can't.

It also incorporates a clear manway cover to allow visibility into the tank and includes Neptune-Benson's automatic programmer to simplify the backwash process.

The Odyssey is available in sizes ranging from our 42" x 48" tank up to our 60" x 84" tank. The Odyssey is also available up to 100 psi operating pressure.

## Pentair Triton C Series Commercial Filters

Ideal for smaller pools and commercial spas. Triton C and C-3 sand filters are designed for high efficiency and easy maintenance in high capacity light commercial pool applications. A unique internal design levels the sand bed and produces an even water flow for the most efficient filtration possible.

The multi-diffuser system and slotted layer design gives the Triton C superior filtration capacity and flow for longer cycles between cleanings, which significantly reduces operating costs. Three-inch bulkheads (C-3 models) cut friction loss in half, and flanged connections don't require special adapters.

And the Triton C Series is engineered with single-piece tanks for superior strength, and made from the toughest materials available to withstand harsh chemicals and weather.

We stock many of the leading multiport valves and usually ship the same day. For the hard to find valves we have a relationship with the manufacturer where we can create a drop shipment directly to you.

Our most popular valve is the one for the Triton C Series filter shown above.

VLV-MP-SM2-PP3	SM-20-3 W. PAC FAB PLUMBING 2" FIP	\$218.00

## AFM - Get DE quality water with a sand system.

AFM stands for Activated Filter Material, a revolutionary filter media made from green glass developed and manufactured by Dryden Aqua. The raw material used for AFM must have a very specific glass quality. AFM is only made from pure green glass which is the only glass that has the necessary metal oxides to make it self-sterilizing.

AFM exceeds the performance of quartz and glass sand by filtering about 30% more organics. At 12 gpm/ square foot filtration speed a nominal filtration of 5 microns is achieved. That's DE performance without the labor and cost!

AFM is bio-resistant and self-sterilizing which means no biofilm is formed in the filter bed. This important feature makes the pool system healthier, ecological and more economical. Sand is a good mechanical filter but it's also an ideal breeding ground for bacteria. Within just a few days every grain of sand is colonized by bacteria. They immediately form mucus to protect themselves against the disinfectant. In this so-called "biofilm" live entire communities of bacteria and other pathogens.

The chemistry of the glass, the particle shape and especially the activation process give AFM these important properties to clearly outperform sand and glass sand filters. The large surface area has a strong negative charge to absorb organics and small particles. The surface also has metal oxide catalysts which produce free radicals and thus a high redox potential. Therefore, AFM is self-disinfecting and prevents bacteria from settling to make it a unique, bio-resistant filter material.

AFM has successfully been used in over 100,000 public and private swimming pools worldwide. Your pool should be next.

## REGENERATIVE MEDIA VS SAND FILTRATION

Sand and regenerative media filters (RMF's) both operate on the principle of mechanical filtration. Sand filters trap particles in water throughout the depth of their sand bed. When the bed becomes dirty/loaded, it is cleaned by backwashing, a process that sends considerable amounts of water down the drain. RMF's trap particles on the surface of flexible tubes coated with perlite media. When the perlite becomes loaded, RMF's regenerate by bumping, a process in which no water is lost. In addition to providing superior 1 micron particulate removal, RMF's significantly reduce the amount of water wasted to drain.

### Defender Regenerative Media Filter

The most revolutionary of Neptune-Benson's innovations has been the Defender™ Automatic Regenerative Media Filter. In a socio-economic climate promoting "green" building products and "sustainability," Defender™ is the earth-friendly solution for pristine pool water. Advantages include saving millions of gallons of water and waste; delivering superior pool water quality; saving on costly mechanical room space; and reducing health risks with safer media handling & disposal. From Australia to Dubai and across the US, aquatic professionals have selected and specified Defender™.

**Contact If It's Water for a quotation on a Defender system designed to meet the needs of your facility.**

MODEL	FILTER AREA (FT <sup>2</sup> )	MIN FLOW (GPM)	MAX FLOW (GPM)	DIAMETER (IN)	FOOTPRINT (FT <sup>2</sup> )

## ALL NEW!!!

### Defender FP Series Filter

We are real excited about the all new Defender FP filter. Introduced in 2021 this filter is making waves across the industry.

Designed with advanced modeling tools and validated through extensive testing, the next generation FP-Series RMF is suitable for applications requiring flow rates between 107-300 gpm. With a small footprint in terms of both size and cost, the FP-Series is BIG on capability, packing many features found in the legacy Defender® RMF product line.

Owners of facilities such as swim schools, health clubs and other similar size venues can achieve significant operational savings compared to conventional sand filtration, including:

- up to 90% less water wasted in backwashing
- up to 50% less energy consumption
- up to 30% less chemical usage

In addition, the amount of space required for filtration systems can be reduced by up to 75%.

### KEY FEATURES

- NSF 50 Listed
- Compact size fits through standard 36" doorways
- Non-metallic fiberglass vessel eliminates corrosion concerns
- PowerBump™ System eliminates moving parts
- Fully-automatic controller makes bumping quick and easy
- Integrated diffuser evenly distributes water flow

## Perimeter Gutter Systems

Both stainless steel and concrete continuous overflow gutter systems offer superior performance over traditional box skimmer design. The pool will be kept clean with constant skimming action over the entire pool surface as well as acting as a quell for wave action. Proper wave quell translates to a fast pool.

Either type of gutter must be designed properly and installed exactly to achieve the desired effect. The slightest defect in elevation can render either product worthless. The surge area in the gutter trough and even something as simple as the drag effect of the water transgressing through the gutter become a function of how well the gutter performs.

All things being equal (both gutters are designed properly and installed to exact tolerances) we will review the benefits of both systems.

### Construction

Concrete gutters are often difficult for commercial pool builders to bid in the North East part of the U. S. The exacting concrete work required and the finish tiling discourages bids from some builders. On the other hand, stainless steel gutters are installed by factory welders with the experience to install to exact tolerances. Quite honestly the builder can build the pool an inch out of level with little or no consequence - the gutter installer will make the final product level. Another benefit to a stainless gutter is that it can be installed in all types of weather (i.e. winter).

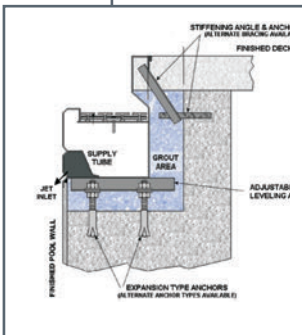

### Maintenance

Stainless steel can rust. Concrete can - and will - crack.

After time it may be necessary to clean the stainless gutter the same way the owner may clean the stainless handrails or starting blocks. This would require a cleaner and elbow grease. The concrete gutter would most likely have a tile finish throughout. The owner can expect the same cleaning procedure. Long term (10 -15 years) experience has shown that the tiling may require additional work. This could include grouting or tile replacement in areas. The latter can be time consuming and expensive. One recommendation we would make is for owners to consider the use of 316L stainless steel rather than the typical 304 stainless steel.

### Plumbing and Buried Pipe

The stainless steel gutter incorporates an integral supply chamber in the face of the gutter. This supply chamber is easily accessible if a repair is necessary. There is very little buried PVC pipe in a stainless system to be crushed or fall victim to "settling". The concrete gutter system requires extensive buried pipe work and shell penetrations. A typical 25-yard pool may require as many as 40 supply inlets throughout. A simple plumbing diagram would show hundreds of feet of buried pipe transgressing the pool. A leak or breach in any of this buried piping is certainly not accessible. While this is not common, anyone who ever experienced a broken line under the deck or pool shell can appreciate the severity of this problem.

## KEY FEATURES

- Designed to handle recirculation rates for small pools and large pools up to 4,000 GPM.
- Constructed completely of 12 gauge T304L stainless steel. T316L also available)
- Pressure tube welding is completely accessible.
- Exclusive finished edge protects pool surface and conceals caulk joint.
- All face welds are recessed and reinforced with unique "V" notch design.
- Non-corrosive, strong pultruded fiber composite grating.
- Installed by manufacturer-approved mechanics.
- Provides continuous perimeter skimming for fastest evacuation of all surge waters.
- Includes desirable handhold for recreational and instructional swimming.
- Eliminates buried pressure piping from pool perimeter.
- Especially popular for therapy pools where still water is essential.
- Houses anchorage for lane lines and depth marker signage.
- Maximizes integrity of a completely level overflow lip to within 1/16".
- Structurally designed to withstand expansion/contraction caused by freeze/thaw cycle.
- Most durable to contend with diverse aquatic programming.
- Lengthy in field service history with minimal maintenance.
- Commonly used to rehabilitate deteriorated pool overflow systems.
- Many optional material and design considerations.

## What is a DooDad? Fair question.

The Webster's Dictionary defines the word as "an often small article whose common name is unknown or forgotten". Some common synonyms for DooDad are thingamajig, contraption, and whatchamacallit.

We define DooDads as those items that you need to run your pool effectively, but these items don't easily fit into any other section of our catalog. Therefore, we created a whole section devoted to the obscure, but equally important, DooDads to make life easier.

### AquataPoxy A-6 Thick

Need a fast patch job? Can't drain the pool? AquatPoxy A-6 Thick is a solvent-free, 100% solids, corrosion-resistant epoxy coating that can be applied to dry or damp surfaces. Formulated for broad range corrosion protection and certified safe for potable water. AquataPoxy A-6 is moisture tolerant and may be used to patch concrete and steel structures underwater. A-6 will set up, adhere, and cure underwater.

Wear eye protection and protective gloves. Don't let it get on your fingernails or in your hair. It won't come out. Available in two part quart kit containing both part "A" and part "B".

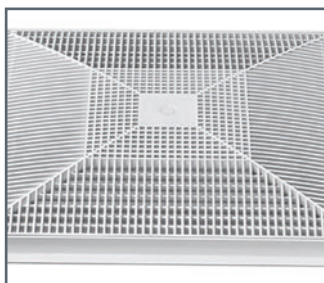

PART	DESCRIPTION	PRICE
AQUATPOXY	Two Part Kit	\$78.00

### VGB Replacement Main Drain Covers

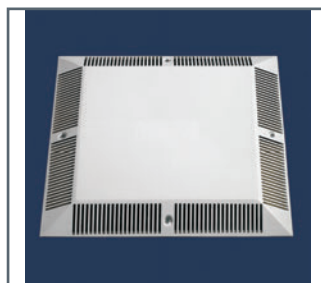

The Virginia Graeme Baker Pool and Spa Safety Act requires the main drain covers be replaced with new. Each drain cover has a lifespan that triggers from date of installation. Once expired, federal law requires they be replaced.

If It's Water stocks the most common replacement covers, for those that are little more obscure, we can usually get them within a week. Below is our listing of our most popular sellers.

PART	DESCRIPTION	PRICE
MD-FGD-0909	LAWSON 9" X 9" FRAME AND GRATE. (2 PACK)	\$361.00
MD-FGD-1212	LAWSON 12" BY 12" FRAME AND GRATE (2 PACK)	\$481.00
MD-FGD-1818	LAWSON 18" BY 18" FRAME AND GRATE (2 PACK)	\$1,071.00
MD-AEGIS	Neptune Benson Aegis 30" x 30" Cover (Each)	\$2,650.00
MD-HAY09	Hayward High Flow 9" x 9" (Each)	\$93.00
MD-HAY12	Hayward High Flow 12" x 12" (Each)	\$120.00

Lawson Aquatics

Aegis Cover

Hayward Cover

## Pressure Gauges

Many sizes to select from with both bottom and rear mounting options.

PART	DESCRIPTION	PRICE
GAUGE 4.5" PRESSURE W/ FLANGE	4.5" Gauge, 0-60 PSI. with Flange, For Neptune Benson Gauge Panels	\$80.00
GAUGE 4.5" PRESSURE	4.5" Gauge, 0-60 PSI. 1/4", bottom	\$42.00
GAUGE 4.5" VACUUM	4.5" Gauge, 30-0"HG, 1/4", bottom	\$42.00
GAUGE 2" PRESSURE 0-30	2.0" Gauge, 0-30 PSI. 1/4", bottom	\$7.30
GAUGE 2" - REAR - PRESSURE 0-30	2.0" Gauge, 0-30 PSI. 1/4", rear	\$7.30
GAUGE 2" - REAR - NEMATO	2.0" Gauge, 0-60 PSI. 1/4", rear Glycerin Filled, for Nemato gauge panels	\$206.00

## Winterizing Plugs

PART	DESCRIPTION	PRICE
WP-01	WINTERIZING PLUG #1 - 5/8"	\$3.60
WP-02	WINTERIZING PLUG #2 - 3/4"	\$4.00
WP-03	WINTERIZING PLUG #3 - 3/4" HOLE	\$4.60
WP-04	WINTERIZING PLUG #4 - 3/4" & 1" PIPE	\$4.90
WP-05	WINTERIZING PLUG #5 - 1" PIPE	\$4.70
WP-06	WINTERIZING PLUG #6 - 1" FITTING	\$4.90
WP-07	WINTERIZING PLUG #7 - 1 1/4" PIPE	\$5.20
WP-08	WINTERIZING PLUG #8 - 1 1/2" PIPE	\$4.20
WP-09	WINTERIZING PLUG #9 - 1 1/4" FITTING & 1 1/2" PIPE	\$5.70
WP-10	WINTERIZING PLUG #10 - 1 1/2" FITTING	\$6.80
WP-11	WINTERIZING PLUG #11 - 2" PIPE	\$7.20
WP-12	WINTERIZING PLUG #12 - 2" FITTING	\$7.90

## Winter Anti-Freeze

Winter Protection: Keep your pool plumbing safe from freezing & prevent damage.

PART	DESCRIPTION	PRICE
CH-AF-OMEGA	Antifreeze, Case / 6 (1-gallon)	\$66.20

## Safety Cover Accesories

### Replacement Anchors

Standard brass anchors are designed to quickly twist open and lie flush to the surface when closed.

CVR-ANCHOR	Brass Anchor for Safety Cover	\$18.00
------------	-------------------------------	---------

### Replacement Springs

Heavy Duty Spring is 8" long with a load bearing strength of 1500 lbs. Designed to pull apart if overloaded

CVR-SPRING	HD Spring for Safety Cover	\$22.00
------------	----------------------------	---------

### Installation Bar

Replacement 36-inch long installation rod for commercial covers

CVR-ROD	36" Installation Bar	\$40.00
---------	----------------------	---------

## Backwash Sight Glass

Available configurations are "in-line" and "radial". In-line models are fully unionized for easy installation. Radial requires 1-1/2" threaded connection.

PART	DESCRIPTION	PRICE
BWS-152-ISG	1 1/2" INLINE SIGHT GLASS SKT X SKT	\$49.50
BWS-202-ISG	2" INLINE SIGHT GLASS SKT X SKT	\$61.90
BWS-252-ISG	2 1/2" INLINE SIGHT GLASS SKT X SKT	\$99.00
BWS-302-ISG	3" INLINE SIGHT GLASS SKT X SKT	\$185.50
SGS-150	1 1/2" BACKWASH SIGHT GLASS (RADIAL)	\$94.50

## STRAINER PARTS

## SELF PRIMING PUMPS / SMALL COMMERCIAL / VARIABLE SPEED

## Speck EasyFit

The EasyFit® pump takes the simplicity of the BADU® Pro to the next level. With a combination of different fittings and risers, the EasyFit can be ordered as a drop-in replacement for virtually any Pentair®, Hayward® or Sta-Rite® pump.

**Features**

Perfect variable speed pump for applications with flow requirements up to 55 gpm. Ideal for smaller commercial pools.

The EasyFit pump series saves you time & money while making your life simpler. The pump allows a user to replace most major brands of pump without the need to re-plumb.

1.65 THP motor comes complete with built-in controller multi-speed control, ranging from 600 to 3450 RPM. Levels can be set in increments of 250.

Built-in timer (based on a 24 hour cycle). Digital inputs for compatibility with pool automation systems.

We have the most common conversion kits in stock to meet Pentair, Sta-Rite or Hayward dimensions.

PART #	THP	VOLTS	PRICE
PUMP-SPK-EASYBB1.6	1.65	208-230	\$1,900.00

## Speck Badu Pro

This all-plastic, self-priming, energy efficient swimming pool pump is designed for small to medium size commercial pools and spas. This pump design has been engineered for incredible durability, superior performance, and quiet operation.

Perfect variable speed pump for applications with flow requirements up to 110 gpm. Ideal for small to medium size commercial pools and spas.

Equipped with an LED light in the basket lid, for ease of maintenance. - plus it's kind of cool.

Two-inch suction and discharge ports are equipped with quick disconnect unions for easy installation and maintenance.

The variable speed control ranges from 600 to 3450 RPM.

Programmable with a high efficiency TEFC (totally enclosed fan cooled) maintenance-free permanent magnet brushless 56 frame with class F insulation.

Digital inputs for compatibility with pool automation systems.

Additional motor features: Built-in real time clock, low temperature monitor, menu keypad lockout and programmable auxiliary load features.

PART #	THP	VOLTS	PRICE
PUMP-SPK-BADU Pro1.6	1.6	230	\$1,654.00
PUMP-SPK-BADU Pro2.7	2.7	230	\$2,025.00
PUMP-SPK-BADU Pro3.45	3.45	230	\$2,316.00

## IntelliFlo Pump

IntelliFlo Variable Speed pump is the most energy-efficient pump ever, with over 10 years of proven in-field reliability. IntelliFlo Variable Speed pumps combine variable drive technology, onboard digital intelligence, and permanent magnet motors (used in hybrid cars) to reduce pump related energy costs by up to 90%. The IntelliFlo has the ability to program exact pump speeds for specific operations - filtering, heating, cleaning, spa jets, water features and more.

PART #	THP	VOLTS	PRICE
PUMP-INTELLIFLO	3.95	230	\$2,750.00

## SELF PRIMING PUMPS / 4.0 - 10.0 HP / SINGLE SPEED

### Speck Model 95

The Speck Model 95 comes with a largest one piece plastic casing design with integrated strainer basket, easy on/off two-piece lid, and 4" quick disconnect unions. These features combined with our unique mechanical seal results in a medium head pump with the "highest flow" of any one piece plastic pump in the market today.

- Large one-piece housing design with integrated strainer basket for faster pump priming.
- This high performance pump comes complete with our 20mm mechanical shaft seal that allows the pump, if mistreated, to run dry for up to one hour.
- The pump can be used for pool water with a salt concentration of up to 5000 ppm.
- Equipped with 4" quick disconnect unions for easy installation and maintenance. A wrench for unions and lid is included with each pump.
- Flanges are available on request.
- Available with heavy duty, energy efficient, totally enclosed fan cooled (TEFC) or Open Drip Proof (ODP) motor designs.

#### SINGLE SPEED / SINGLE PHASE

PART #	HP	VOLTS	MOTOR/FRAME	PRICE
PUMP-SPK-95-4-1	4.0	208-230	ODP/56	\$3,415.00
PUMP-SPK-95-5-1	5.0	208-230	TEFC/112M	\$5,159.00
PUMP-SPK-95-7.5-1	7.5	208-230	TEFC/112M	\$6,652.00

#### SINGLE SPEED / THREE PHASE

Part #	HP	Volts	Motor/Frame	Price
PUMP-SPK-95-4-3	4.0	208-230/460	ODP/56	\$3,589.00
PUMP-SPK-95-5-3	5.0	208-230/460	TEFC/112M	\$4,677.00
PUMP-SPK-95-7.5-3	7.5	208-230/460	TEFC/112M	\$5,189.00
PUMP-SPK-95-10-3	10.0	208-230/460	TEFC/112M	\$5,705.00

## PUMP BASE

### The perfect adjustable pump base replaces costly (and time consuming) concrete pads

The 8-gauge stainless steel construction has a durable powder coated finish, providing an extra layer of corrosion protection. Stainless steel motor mounting hardware is included along with a rubber vibration isolator. Stainless steel concrete anchors for floor mounting are included as well. Allows for easy removal of motor for repair or replacement.

- Available for most motor mounting frames from 2HP to 75HP
- Two sizes of adjustment range available; 7"-11" and 12"- 24"

PART #	DESCRIPTION	PRICE
NB-12012	Base Pump 2-10 HP ADJ 7"-11"	\$868.70
NB-12013	Base Pump 2-10 HP ADJ 12"-24"	\$1,972.44
NB-12014	Base Pump 15-75 HP ADJ 7"-11"	\$868.70
NB-12016	Base Pump 15-75 HP ADJ 12"-24"	\$1,487.10

## FLOODED SUCTION PUMPS / 5.5 - 30.0 HP / SINGLE SPEED

### Speck Normblock Flooded Suction Pumps

The Normblock Multi Series is redefining the limits of plastic pumps. The Normblock Multi takes the non-corrosive and lightweight benefits of plastic higher than any other American manufacturer. This pump is ideally suited for aquatic facilities, fountains, water parks, aquaculture, and pools with elevated salt concentration.

- Available in 5.5, 7.5, 10, 15, 20, 25 & 30 HP Models.
- The Normblock Multi has a robust horizontal single stage design.
- Superior slow (1750 rpm) running design reduces vibrations resulting in quiet operation.
- The housing is made of high performance plastic (THK), corrosion resistant without elaborate internal coating and can be used with higher salt concentrations.
- Heavy duty energy efficient totally enclosed fan cooled (TEFC) motor, Class F insulation.
- Shaft coupling allows the motor to be replaced without replacing the mechanical seal.
- A high wear, rugged Carbon/SIC – EPDM mechanical seal allows for a long life and long maintenance intervals.

### 65/250 Series

PART #	HP	VOLTS	PHASE	SUCTION / DISCHARGE	PRICE
PUMP-SPK-NB-5.5-065	5.5	208-230/460	3	4" / 3"	\$7,810.00

PUMP-SPK-NB-30-125	30	208-230/460	3	6" / 5"	\$14,405.00

**ACCESSORIES FOR 125/250 SERIES**

Part #	Description	Price
PUMP-SPK-SFA8-125/250	Suction Flange Adaptor (8") for the Normblock Multi Model 125/250	\$459.00
PUMP-SPK-STR8-125	Strainer Tank (8"), Flange Adaptor & Hardware to connect to the Normblock Multi 125/250	\$8,696.00

**Variable Frequency Drive - Invertek Eco Optidrive**

Single-speed drives start motors abruptly, subjecting the motor to high torque and current surges up to 10 times the full-load current. Variable frequency drives offer a soft start, gradually ramping up a motor to operating speed. The variable frequency lessens mechanical and electrical stress on the motors and can reduce maintenance and repair costs and extend the motor life.

Variable frequency drives also allow more control of processes with water distribution — facilities can consistently maintain desired flowrates by using automated controls.

Energy savings from variable-frequency drives can be significant. For example, with a centrifugal pump even a small reduction in motor speed can reduce a pump's energy use by as much as 50%.

**Features**

- The Invertek Eco Optidrive series features a weather proof, watertight, and corrosion resistant enclosure.
- Invertek's "Ease of Use" philosophy ensures that advanced features are simple to commission, without requiring extensive, in depth knowledge of a huge number of parameters.
- Guided Start-Up: Simplifies initial programming
- Motor and Drive are protected against voltage spikes, phase imbalance and power surges.
- Efficiency ratings greater than 98%
- Smooth motor acceleration/deceleration
- Dry run protection: the drive can evaluate a pump's speed/power and shut it off or warn when the pump starts to run dry, protecting it from heat/friction damage.
- Drive included all necessary hardware, I/O and communication features without the need to purchase any additional equipment
- LCD graphical keypad with intuitive wizards, built-in help text, and a user friendly interface.

## The Pro Strainer

**The ProStrainer system provides an excellent solution for high flow, high capacity pre-strainer applications requiring filtration down to an 1/8" particle size.**

ProStrainer is the first and only dual basket high capacity pump strainer, flow straightener, and air evacuator in one product, with patented Horizontal Laminar Flow (HLF) Technology. Our standard series comes in all flange sizes. Our reducing series allows for a flange size to match the pump.

The ProStrainer system offers many features including:

- All stainless-steel system components (excluding see-through portion of lid)
- Smallest industry footprint
- Open area ratios beat competitors by 400%
- Clog free by-pass design
- Easy to maintain
- Promotes highest industry NPSH for improved pump performance
- Multiple flow paths reduce chances for major flow blockage by large debris
- Adjustable draw latch lid clamping system
- See-through lid provides easy inspection
- Integrated mounting system built into design
- Various strainer screen openings available - 1/4" standard

## Hair and Lint Strainer

Constructed of heavy-duty stainless steel or fiberglass, our hair and lint strainers include all the features and benefits requested by experienced pool operators: heavy duty construction, 1" thick transparent acrylic lid, easy opening securing assemblies, full face 1/8" thick sealing gasket, drain, auxiliary gauge connection, stainless steel basket and compact dimensions with flanged fittings as required, highlight the product perfectly suited for every pool. Available in standard sizes from 3"-16" and reducing strainers are available in sizes from 4" - 14".

Additionally, we can provide you with replacement parts for our strainers (and other national brands) including securing knobs, gaskets, baskets and lids.

**Give Us A Call**

The products on this page are available for delivery to your location. There is a limited delivery area and a minimum order is required to avoid surcharges. Please call us for more details.

## Chlor King Commercial Salt Generator

Our line-up of commercial salt generators produce chlorine "on-site" within the pools' circulation system. You literally make your own chlorine and avoid the never ending price hikes.

Systems operate using the salinity in the water to produce hypochlorous acid. Because salt is continuously recycled during this process, the only salt makeup required is when water is lost due to backwashing or splash out.

Call us today and we'll do an on-site survey to see if your facility is a good candidate for salt water chlorination.

### FAST FACTS

- Salt Water Pools are very bather friendly.
- Saline chlorination reduces or eliminates the storage of hazardous chemicals (chlorine). No need for the delivery, handling or storage of chlorine compounds.
- Saline chlorination is an environmentally friendly, renewable resource. Go Green while you save some green.
- Our saline systems carry both NSF 50 listing and UL 1081 certification.
- Residential salt generators work great on residential pools. We've seen they can't keep up with the heavy demand required of commercial installations.
- We have a line-up of systems to fit virtually any size pool or spa.
- These systems are easy to install and will work easily with your present equipment.
- Perfect for hard to reach delivery locations.

## Enzymes

### Natural Chemistry ProZymes Pool

Breaks down filter clogging grime and grunge caused by sunscreens, lotions, body oils and more. Reduces scrubbing and brushing of tile line. Reduces overall pool maintenance.

CH-NC20301	ProZymes Pool	Case / 4 (1-gal)	\$280.80
CH-NC20305	ProZymes Pool	5-gallon jug	\$308.00

### Natural Chemistry ProZymes Spa

Same benefits of our ProZymes Pool product but specially formulated for warmer water.

CH-NC20401	ProZymes Spa	Case / 4 (1-gal)	262.00
CH-NC20405	ProZymes Spa	5-gallon jug	\$301.00

### Natural Chemistry Pool First Aid

When a quick clean up is needed! Pool First Aid combines powerful concentrated enzymes with an organic clarifier that is ideal for big clean ups. Gets rid of scum-lines, waterline ring, cloudy water, clogged filters and chemical odors with no scrubbing.

CH-NCPFA	Pool First Aid	Case / 6 (1-litre)	\$176.00
----------	----------------	--------------------	----------

## Metals and Staining

### Natural Chemistry Stain and Scale Control

Stain & Scale Control protects pools from the damaging effects of scale buildup and staining due to excessive calcium, iron, copper and other minerals. It works without the use of phosphates or harsh acids. Also assists in preventing/reducing scale from forming on chlorine generator cells and UV crystal lenses and sleeves.

CH-NC20701	Stain and Scale	Case / 4 (1-gallon)	\$311.00
CH-NC20705	Stain and Scale	5-gallon jug	\$325.00

### GLB Super Sequa Sol

No pool should be started up without first "sequestering" the metals in the pool. After each drain-and-fill, Super Sequa-Sol should be added to avoid metal staining.

Super Sequa-Sol should also be added on a routine basis as fresh water is being introduced to the pool.

Super Sequa-Sol is not affected by high chlorine levels and is your best insurance against staining.

CH-GLBSSS	Super Sequa Sol	Case / 12 (2-lb.)	\$488.00
-----------	-----------------	-------------------	----------

### Natural Chemistry StainFree

StainFree is an ascorbic acid product, similar to everyday Vitamin C. It is ideal for treating stains on all pool surfaces. A safe and people friendly alternative to harsh chemicals typically used to treat stains.

CH-NC07395	StainFree	Case / 12 (1.75-lb.)	\$495.00
------------	-----------	----------------------	----------

## Cleaners

### GLB Filter Cleanse

Have you ever wondered where all the lotion, oils and Coppertone end up? Some of this sticks to your pool tiles but most ends up inside your filter bed. Yuck! What's even worse is that backwashing doesn't remove these oils. Double Yuck!

In short order, your sand or DE filter becomes a grease-trap rather than a filter. Once or twice a year you need to "de-grease" the filter using GLB Filter Cleanse. It's not hard to do, and you will be impressed by the improved flow rates and water clarity

CH-GLFC	Filter Cleanse	Case / 12 (2-lb.)	\$332.00
---------	----------------	-------------------	----------

### Natural Chemistry Clean and Perfect

Clean & Perfect is a unique blend of powerful natural enzymes and citrus-based surfactants. It cleans even the toughest grease, dirt and grime with ease, yet won't harm any surface and does not affect the water chemistry.

CH-NC00176	Clean & Perfect	Case / 12 (22 oz.)	\$137.00
------------	-----------------	--------------------	----------

### Chem Clean Express

Chem-Clean Express – a fast-acting, non-toxic, environmentally safe cleaning agent approved for use on all sand and regen filters. (Note: Not eligible for UPS or Fedex ground shipping.)

CH-NB-13250	Chem Clean Express	Pail / 25-lb. (each)	\$272.00
-------------	--------------------	----------------------	----------

## Must Have Chemicals

### Natural Chemistry Phos Remove

Reducing phosphate levels in swimming pools is easy with Natural Chemistry's PhosRemove. This product is formulated from lanthanum (rare earth compounds). PhosRemove effectively and efficiently removes phosphates and reduces pool problems!

CH-NC20501	Phos Remove	Case / 4 (1-gal.)	\$400.00
CH-NC20505	Phos Remove	5-gallon jug	\$488.00

### GLB Algimycin 2000

You went on vacation and Bob forgot to add the chlorine! Now you've got a garden growing on the bottom of the pool. Time to use Algimycin.

This product is concentrated (not 80% water and 20% product), so you know it's strong. GLB Algimycin works on all kinds of algae including black, green, mustard and yellow.

Algimycin will not stain or foam up and does not irritate your skin.

Use Algimycin every couple of weeks as a preventative maintenance program. Also, works great as an end-of-year treatment on outdoor pools.

GLA-2000	Algimycin	Case / 12 (1-qt.)	\$480.00
----------	-----------	-------------------	----------

For close to two decades, If It's Water has been recognized as one of the leading authorities on assisted access lifts for pools and spas. In this time we've installed hundreds of lifts. Most of these installations have been straight-forward, but some were a little tricky. Regardless of the type of pool or spa you have, we have a lift that will suit your needs.

Our staff has received extensive training on our entire ADA product line as well as the law and its requirements. You'll have the assurance of full compliance with unmatched product and service.

Not all pools are created equal and the needs of your patrons can be very diverse. That's why it's important to purchase an assisted access lift from us. Our staff can make a site visit to determine the best lift for your pool's dimensions while still meeting the needs of your clients. If It's Water offers installation services for all of our assisted access products.

## Battery Powered Lifts-Motion Trek Series

Motion Trek Deluxe

Our Motion Trek lifts are designed from the ground up to perform and are an ideal solution for facilities needing to comply with ADA regulations.

Each lift has a 350 lb capacity and is powered by a low voltage battery (charger included). The battery averages 90 uses between charges.

Both lifts use the 2-3/8" anchor and can accommodate an anchor setback ranging from 6" to 22" from the pool wall.

While the "super-structure" of both lifts is identical, the Deluxe model provides an upgraded footrest and headrest.

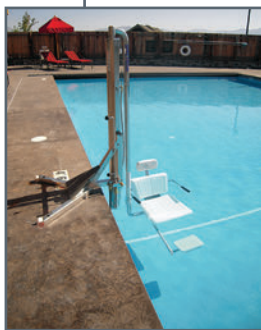

Optional factory applied powder coating available (you pick color!). Call for pricing.

PART #	DESCRIPTION	PRICE
SL-153121	Motion Trek BP 350 w/ Anchor	\$7,444.00
SL-153121-DLX	Motion Trek BP 350 Deluxe w/ Anchor	\$8,511.00

SLA-173415	Control Box - Motion Trek (with battery)	\$897.00

## Water Powered Lifts Lolo and Gallatin

Gallatin Lift

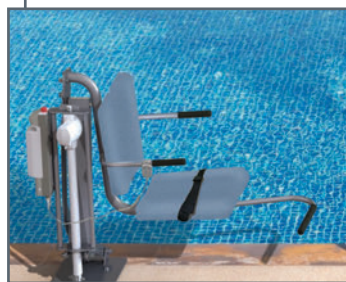

The ideal replacement lift for 1st and 2nd generations water powered "Swim Lifts"

The Lolo is designed to accommodate in-ground pools having a minimum deck to pool floor of 42". The Gallatin is designed to accommodate both inground pools and spas. Standard units will accommodate anchor locations 18 to 30 inches from the pool wall and a water draft up to 12 inches. Our water powered lifts are designed to lift a 400 lb. load using 55 psi of water pressure.

The Lolo and Gallatin can be installed into existing Swim Lift anchors.

PART #	DESCRIPTION	PRICE
SL-27550	Swim Lift Lolo , Water Powered, 400# Capacity	\$9,969.00
SL-27336	Swim Lift Gallatin , Water Powered, 400# Capacity	\$11,964.00
SLA-27450	Lolo / Gallatin Preset Anchor / New Construction	\$828.00
SLA-27400	Lolo / Gallatin Retrofit Anchor / Existing Facilities	\$828.00
SLA-27364	Lolo / Gallatin Cover	\$595.00

## All New AquaBuddy

The AQUA Buddy 350 is our all-new ADA compliant battery powered lift that is self-operable from the deck and water via wired hand control. This compact lift has a low profile and smaller footprint, making it less obtrusive on the pool deck. Manufactured from powder coated 304 stainless

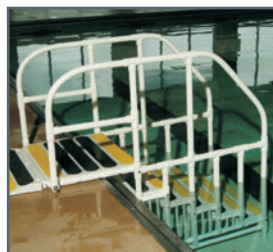

steel this lift will not only look good, it's protected from the harsh environment normally found in natatoriums.

The AQUA Buddy can be installed on new construction projects or easily retrofitted into existing facilities.

- 350 pound lifting capacity
- Economical
- Quiet & smooth performance
- Simple installation & easy removal
- Retro fitting capability
- Compact deck plate and mounting footprint
- Powder coated 304L stainless steel
- Dual flip-up arm rest
- Adjustable footrest
- Seat belt

PART #	DESCRIPTION	PRICE
SL-1730116	AQUA Buddy 350 with Anchors	\$6,240.00

## ADA Compliant Pool Stairs

The ideal solution for secondary access on pools greater than 300 linear feet.

The Aquatrek stair case meets all requirements of the ADA and can be easily adapted to virtually any pool.

Available in 4, 5, 6 or 7 tread (step) models. This unit is built for heavyweight durability but maintains lightweight portability. The reinforced siderails provide strength and stability for use in a commercial pool. Each tread comes with a nonslip safety surface in two colors, yellow and black. The AquaTrek Ladder can be easily removed for swim meets or other programming.

PART #	DESCRIPTION	PRICE
SL-ADA-4000	ADA Compliant AquaTrek 4-Tread Ladder	\$6,671.00
SL-ADA-5000	ADA Compliant AquaTrek 5-Tread Ladder	\$7,113.00
SL-ADA-5600	ADA Compliant AquaTrek 6-Tread Ladder	\$7,562.00
SLA-ADA-5700	ADA Compliant AquaTrek 7-Tread Ladder	\$8,129.00

The storage of chemicals should not be taken lightly. Why use a single wall tank and risk a chemical spill? Why use a tank manufactured from materials that degrade when storing chlorine?

Our tanks are designed and built to contain any spill within the outer tank in the unlikely event the inner tank fails. Additionally, our tanks are manufactured from materials that are tested and approved for storing pool chemicals.

In addition to our double wall series of tanks we also offer single wall tanks ranging in size from 20 - 15,000 gallon capacity. These single wall tanks are ideal for use as backwash holding tanks or storing non-hazardous chemicals.

## FAST FACTS

- Our double wall storage tanks offer 110% spill containment.
- The fully enclosed design is suitable for indoor or outdoor use. This design also prevents rain, snow and debris from collecting in the tank.
- These tanks are manufactured from linear polyethylene which is rated for storage of both chlorine and acid.
- Single wall tanks (backwash holding) are available in many sizes. Call for more information.

## Pricing

## Blue White F300 Series

The F-300 Series Flowmeters are horizontal mount only, and provide a convenient and economic means of measuring water flow in a closed pipe system. The F-300 Series Flowmeters utilize a pitot tube pick up and a hard edged float design to measure flow. They feature a tough, one-piece machined acrylic meter body, corrosion resistant internal parts, and permanent screen-printed scale. You will get all the strength and long service life required in most commercial and industrial applications.

The F-300 Series is supplied with two stainless steel clamps and can be installed in schedule 40 or schedule 80 piping.

PART #	DESCRIPTION	PRICE
FM-A-1.5	Flow Sensor - Pitot Tube Acrylic, 1.5", 10 TO 70 GPM	\$148.00

## FlowVis Inline Flowmeters

Ingenious in concept and flawless in operation, FlowVis® has been revolutionizing the way flow is measured in a myriad of applications and environments since its inception in 2012.

With unrivaled average accuracy, greater installation flexibility, and more NSF 50 certified models than any other brand, it's easy to see why FlowVis® is a brand of flow meter you can put your trust in.

Installation flexibility; installs horizontally, vertically, or even upside-down.

Can be installed with little-to-zero straight pipe requirements with no effect on accuracy.

PART #	DESCRIPTION	PRICE

## Blue White Digital FlowMeters

F-1000

Our Blue White Digital Flowmeters are battery powered and require two standard "AAA" batteries which last about a year. Mounting directly to the pipe with the supplied saddle fitting these flowmeters have easy to read LCD display and come factory calibrated - no programming is necessary.

On the F-1000 Series, the display is mounted directly to the saddle fitting. The F-2000 series comes with 25-feet of cable allowing you to mount the display in a more convenient area.

For nearly 20 years If It's Water has been providing "turnkey" starting platform solutions for our clients. We have completed projects for dozens of aquatic facilities where we partnered with the client and worked with them from initial design to final installation. There is no other firm that can match our service and product offerings – nor our track record of success. Our goal,

regardless if you are a small swim club or a NCAA powerhouse, is to make the process as easy as possible.

Our relationship with all of the leading manufacturers ensures that we have a platform to fit your needs and budget, but more importantly, that your project is going to receive the attention-to-detail it deserves.

## ALL NEW!!! REVOLUTIONARY EXPANSION ANCHOR

### REVOLUTIONARY EXPANSION ANCHOR

Spectrum's patented and innovative Expansion Anchor is the perfect solution for updating your starting platforms without the hassle of construction. We design your starting platforms to meet your pool's dimensions AND the dimensions of your existing anchors. This saves both time and money and avoids downtime for anchor removal and installation.

Give us a call and we'll be happy to provide an analysis of your current starting platform setup.

### Spectrum Aquatics Xcellerator

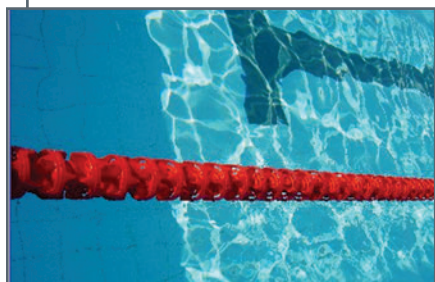

- Large 32" x 24" stainless steel top sloped at a 10° angle for optimal starting stances
- Covered in a superior non-slip material
- Easy-to-adjust track start footrest attachment with 12 setting options to accommodate all heights and levels of flexibility
- Uses single post anchor with patented anti-wobble design allowing for easy removal
- Side handles included to enhance speed and quick takeoffs
- Non-slip side access step
- Backstroke handles with versatile 18" H bar
- Stainless steel construction
- Available in black, with upgrade of custom colors and logos available.
- Powder coating options available.

### Paragon Quickset

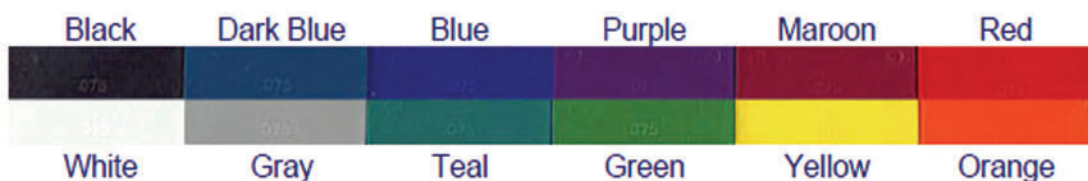

- Each Paragon top is made from a solid sheet of 1-1/4" high density (UV Inhibited) polypropylene with a patented, cross-grooved, non-skid, white sand finish.
- Track Start size (24" x 32"). Standard size (24" x 20") is also available.
- Cross groove pattern enhances drainage and is crucial to a solid start.
- Dual-Wedge, Tool-Less Clamping Anchors create a simple, zero-movement installation.
- Each pedestal is a single weldment of high-grade Certified T304L stainless steel, polished and buffed to a consistent, high-quality finish.
- Track Start Plus+ Adjustable Backplate Kit Quickly adjusts to 5 numbered set-points using the spring-loaded indent pins.
- Available with custom logo on the top and/or backplate, color options for the top, side step or backplate and powder coating are all available.

AntiWave Racing Lanes have been used in multiple Olympics and selected by universities and clubs throughout the world. AntiWave's racing lanes use hydromatic propulsion to disperse the waves along the lane line then down to stop all momentum, creating perfectly tranquil water. The unique lane and disc design provide advanced wave quelling technology while having a sporty and savvy appearance. Not only will our lanes improve swimming performance in your pool, but they will also elevate your facilities appearance.

Available in 4.75" and 6" diameter, Antiwave Racing Lanes ship with the easy-to-adjust Supertensioner, the original turnbuckle tensioning device on the market.

Below is our standard Color Chart. Custom colors are available. Call us for details.

CODE	DESCRIPTION	PRICE
AW-55850	6" Maximum — 60' Line (assembled)	\$838.00
AW-55855	6" Maximum — 75' Line (assembled)	\$997.00
AW-55860	6" Maximum — 25 Meter Line (assembled)	\$1,049.00
AW-55865	6" Maximum — 50 Meter Line (assembled)	\$1,898.00

CODE	DESCRIPTION	PRICE

FR-71540	36 Unit First Aid Kit	\$74.00

## CPR Mask

Packaged in a compact, hard shell, pocket-sized carrying case and features a patented one-way valve with filter. Prevents mouth-to-mouth contact with victim's face. Leak-proof seal, re-inflated contoured soft vinyl cuff shapes easily to adult, child and infant facial contours. Transparent dome allows rescuer to check victim's mouth for lip color and secretions. Mask is ready to use with no need to assemble valve and filter, saving valuable time in emergencies.

FR-71781	CPR Mask	\$10.00
----------	----------	---------

## Bloodborne Kit

Bloodborne kits are mandated by many state agencies and are a must around a pool area. Attempting to remove blood from the pool deck using a hose is not effective. Our kits come with fluid solidifying powder, bio-scoop with detachable scraper, biohazard bag with tie, germicidal cloth, medical grade gloves, BZK towelette, trash bag with tie, and paper towels all in a sealed pouch.

FR-71775	Bloodborne Kit	\$14.00
----------	----------------	---------

## RESCUE

## Rescue Tubes

All of our rescue tubes are made of the highest quality closed cell foam to resist erosion. They are individually hand dipped three times instead of the customary two to ensure proper adhering of the vinyl coating and extend the useful life of the equipment dramatically. Our shoulder adjustable strap and tow line consists of durable nylon webbing and runs through the entire tube. The tubes include standard printing of GUARD in white.

FR-72000	40" Rescue Tube	\$58.00
FR-72050	50" Rescue Tube	\$63.00

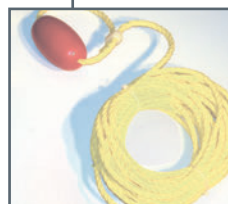

## Ring Buoys

24" U.S. Coast Guard approved. Nylon vinyl skin, urethane foam core and easy-to-change rope, looped and secured inside molded core. Resistant to rot or mildew, rope stays in place and stands out for easy in-the water grasp.

FR-72310	24" White Ring Buoy	\$101.00
FR-72315	24" Orange Ring Buoy	\$101.00

## Throw Rope

Made from heavy duty 1/4" polypropylene floating line with a "lemon foot" attached to hold the line with your foot after throwing. Standard 60' length.

FR-72360	Throw Rope	\$28.00
----------	------------	---------

### Rescue Blanket

Machine washable, grey, soft, non-woven, 30% wool and 70% cotton, acrylic & polyester blend. Excellent insulation for injured patients or victims in shock. 60" x 84"

FR-71810	Rescue Blanket	\$20.00
----------	----------------	---------

### Life Hook

Features rugged double crook design and is made of anodized aluminum and can be used for any type of water rescue. Comes with either 8-foot or 16-foot unbreakable fiberglass pole.

FR-70120	Life Hook Only	\$33.00
FR-70080	Life Hook w/ 8-foot Pole	\$83.00
FR-70100	Life Hook w/ 16-foot Pole	\$140.00
CM-R221036	Pole hangers, ABS with screws, Set of 2	\$7.30

### Spine Board

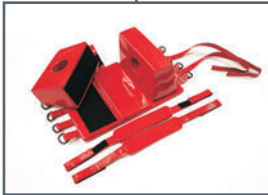

Our AB spineboard is the most popular board. Economical yet strong. The shell of the board is heavy duty and is x-ray translucent. The board comes with 21 handholds. Boards come with 8 pins for your strapping needs. Board is waterproof and excellent for water rescue. The weight capacity of this board is 400lbs. Made of polyethylene.

FR-71010	Spine Board	\$210.00
----------	-------------	----------

### Spine Board Straps

Securing and restraining straps made of durable nylon webbing for fast, firm immobilization. For use with basket stretchers, spinal backboards and stretchers. 72"L x 2" W.

FR-71011	Spine Board Straps (Each)	\$9.00
----------	---------------------------	--------

### Head Immobilizer

Featuring Velcro straps, two foam pads, removable base plate, chin and head straps. Users will find this head immobilizer very user friendly and it will fit virtually any backboard.

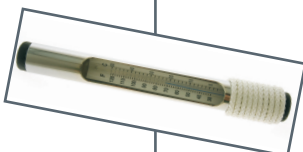

FR-71590	Head Immobilizer	\$99.00
----------	------------------	---------

### Spineboard Mounting Bracket

This mounting bracket fits virtually all spineboards and mounts easily to the wall with the provided screws. Use of this bracket ensures that your spineboard will avoid damage from the ground."

FR-71012	Mounting Bracket	\$59.00
----------	------------------	---------

### Heavy Duty Thermometer

Chrome brass thermometer, blown glass tube secured in brass tubing, 3 ft. cord.

FR-37220	Heavy Duty Thermometer	\$37.00
----------	------------------------	---------

## CHEMICAL HANDLING

## Eye Wash Station

Comfo Classic Half-Designed for locations without accessible plumbing, this eyewash station can retrofit into any mechanical room or chemical storage area. Comes with double back tape and screws for installation. Stations are designed with a quick pull-out bottle for fast and easy access.

FR-71592	32 oz. Eye Wash	\$53.00
FR-71592R	32 oz. Refill Bottle	\$27.00

## Vinyl Apron

Heavy-duty 20-mil vinyl apron provides long service and excellent protection against chemicals and punctures

FR-93210	Apron	\$30.00
----------	-------	---------

## PVC Gloves

Comfo Classic Half-Vinyl Coated PVC Gloves provides the best protection against chemicals.

FR-93230	PVC Gloves	\$15.00
----------	------------	---------

## Splash Goggle

This goggle has a heavy duty vinyl body which offers a comfortable fit without sacrificing safety concerns

FR-91210	Splash Goggle	\$8.00
----------	---------------	--------

## Respirator

Comfo Classic Half-Facepiece Soft seal for comfort and pliability. Cradle-style headband

FR-91060	Respirator (Only)	\$33.00
FR-91070	Cartridges (2/pack)	\$53.00

## Face Shield

Headgear and full face shield, Black Frame with clear ABS visor, Visor dimensions are 16-1/2" high x 8" wide.

FR-91230	Face Shield	\$95.00
----------	-------------	---------

## ROPES AND FLOATS

### Safety Rope

This polypropylene rope has low flammability and has great resistance to sunlight. Lightweight and strong with many uses. It is waterproof, rot resistant, and floats. Resists bending and flexing and has great knot-holding properties.

Available in 1/2-inch and 3/4-inch sizes.

Rope is sold by the foot.

FR-57110	1/2" Blue/White Rope(per foot)	\$0.75
FR-57115	1/2" Red/White Rope(per foot)	\$0.75
FR-57150	3/4" Blue/White Rope(per foot)	\$1.00
FR-57152	3/4" Red/White Rope(per foot)	\$1.00

### Handi-Lock Floats

Made of linear polyethylene treated with chlorine inhibitors and ultraviolet stabilizers for durability and long life. These floats have a self locking feature that fixes the float on the rope without float keepers. Accommodates 1/2-inch, and 3/4-inch polypropylene rope.

FR-57208	5-inch x 9-inch Red/White/Red for 1/2-inch and 3/4-inch	\$17.00
FR-57210	5-inch x 9-inch Blue/White/Blue for 1/2-Inch and 3/4-inch	\$17.00

### Chrome Plated Bronze Rope Hook Ends

FR-58030	CPB End for 1/2-inch Rope	\$17.40
FR-58040	CPB End for 3/4-inch Rope	\$19.00

### The Savage 1-HP

This vacuum pump includes a 1-HP electric pump, stainless steel pump cart, a check valve on the pump suction, a gate valve on the pump discharge, a hose bib connection for easy priming, 50' power cord with a waterproof switch, and barbed hose fittings for the connection of discharge and suction hoses. Flow rates to 5000 gph. (120 VAC)

CODE	DESCRIPTION	PRICE
VAC-11100	Savage Vacuum - 1 HP	\$4,030.00

### The BKP 1-HP

Economical units for cleaning mid-sized pools. These units include a 1-HP, 120 volt, Speck pump to move approximately 5300 gallons of water per hour through a 105 square foot Harmsco filter. Features include 13" pneumatic wheels, 50' power cord, GFCI shock protector and 2" shut off valves and quick-connect hose fittings. (120 VAC)

CODE	DESCRIPTION	PRICE
VAC-10700	BKP Vacuum - 1 HP	\$4,524.00

### Wildcat 1-HP

This powerful pump cart uses a 1-HP, 120 volt, Sta-Rite® Dyna-Max Pump to move approximately 6500 gallons of water per hour through a 105 square foot Harmsco filter. This all-in-one unit is powerful and compact, easily moved to different areas of your facility. Features include 13" pneumatic wheels, 100' power cord, GFCI shock protector and 2" shut off valves and quick-connect hose fittings. (120 VAC)

CODE	DESCRIPTION	PRICE
VAC-10670	Wildcat Vacuum - 1 HP	\$7,854.00

### Harmsco Replacement Filter Cartridge

CODE	DESCRIPTION	PRICE
VAC-ST105	105 Sq. ft. Replacement Cartridge	\$190.00

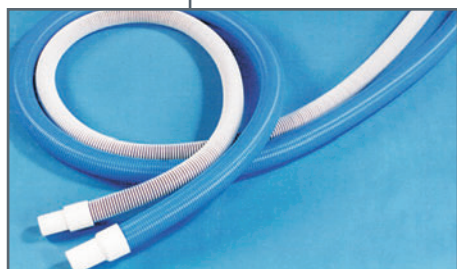

### Vacuum Heads

Heavy duty commercial grade vacuum heads available in lengths of 14" and 22". These rugged vac heads are built to withstand the demands of a commercial pool. They are reinforced at all stress points, the body is molded in one piece of flexible polyethylene. Includes 1-1/2 in. vac hose swivel connection. Two inch vac hose fits directly on vac head body.

CODE	DESCRIPTION	PRICE
VAC-R201276	14" Vac Head	\$178.00
VAC-R201286	22" Vac Head	\$221.00

## Vacuum Hose

Spirally wound commercial grade pool vacuum hose. The first choice of those that want products which are built better. This is our best high flow hose, which will not collapse or kink under the most severe conditions.

CODE	DESCRIPTION	PRICE
VAC-AZMF235	Vac Hose, 1.5"x35' HD	\$65.00
VAC-AZMF250	Vac Hose, 1.5"x50' HD	\$106.10
VAC-R221218	Discharge hose, 1.5" x 50'	\$96.00

## Precision 2.0Li

Maximum efficiency is achieved with the Cordless Water Tech Precision 2.0Li. Incorporates the largest debris capture in its class combined with industry leading Water Tech P40 Heavy Duty motor. Unlike Robotic Pool Cleaners, the Water Tech Precision 2.0Li is self-contained and can be attached to a standard pool pole or can be maneuvered using the integrated handle for greater precision.

- Minimum Operating Depth: 28.00 in. (71.12cm) @45°angle.

### What's Included

14.9" Vacuum Head w/Soft-Bristle Brush, 14.5" Gunite Vacuum Head w/rollers, Vacuum Head Adapter, Wall Charger, (1) Xtreme Multilayer Filter Bag, (1) Sand & Silt Filter Bag, (1) All-Purpose Filter Bag, (2) Lithium Ion Batteries, Shoulder Strap, (1) Carcharger

CODE	DESCRIPTION	PRICE
Vac-Precision	Precision 2.0 Vacuum	\$1,200.00

**NEW!**

**and  
COOL!**

## Carbon Fiber Poles

The next generation of pool cleaning equipment is here. Primate Poles are first and only carbon fiber pool poles! Manufactured using the highest quality materials the result is an ultra-light weight pool pole with superior strength, performance, and features that make work easier for pool cleaning professionals.

- Carbon Fiber Construction
- Stainless Steel Tool End
- Lever Locking System
- Ultra Light Weight
- 10 x Stronger than Aluminum
- Replace Any Part Individually

CODE	DESCRIPTION	PRICE
CM-5021	8' to 16' carbon fiber ultra light weight pole	\$295.00

## Aluminum Poles

Made with satin-clear anodized, heavy-drawn tubing, this telescopic pole stands up to all weather conditions. The pole is fitted with a specially designed nylon lock system that has been pressed on the outside of the pole using more than a ton of pressure — it won't come off. The pole also comes standard with 1/4" holes on one end.

CODE	DESCRIPTION	PRICE
CM-5008	8' to 16' Nylon Outside Lock	\$112.00
CM-5012	12' to 24' Nylon Outside Lock	\$186.00
CM-5016	16' to 32' Nylon Outside Lock	\$286.00

## Commercial Grade Skimmer Nets

The Durapro Series leaf skimmers and rakes are made with unbreakable plated spring steel frames. The same frame has been used continuously since 1953. This frame will not corrode, rust or break. Each skimmer or rake comes with a protective replaceable wear guard around the frame.

CODE	DESCRIPTION	PRICE
CM-SS4	Square Skimmer w/ 4" Pocket	\$50.00
CM-SS8	Square Skimmer w/ 8" Pocket	\$51.00
CM-SS16	Leaf Rake w/ 16" Pocket/ Edge	\$72.00

## Brushes

wall brushes

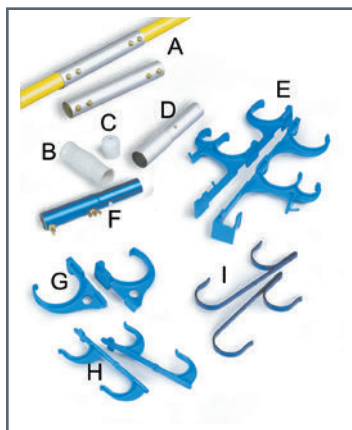

algae brushes

Curved aluminum back brushes are UV stabilized with nylon bristles. The strong die cast aluminum back ensures durability.

All algae brushes feature quality stainless steel bristles and are perfect for removing tough algae on plaster surfaces.

CODE	DESCRIPTION	PRICE
CM-R111342	24" Curved Wall Brush	\$45.00
CM-R111330	36" Curved Wall Brush	\$58.00
CM-R111626	9" Algae Brush	\$28.00
CM-R111646	18" Algae Brush	\$46.00

## POLES AND HOSE ACCESSORIES

ITEM	PART #	DESCRIPTION	PRICE
A	CM-14090	Pole adapter sleeve with hardware	\$8.00
B	CM-R22025	White vinyl hand grip	\$4.20
C	CM-R22007	Pole cap, fits 1-1/4" poles	\$3.00
D	CM-R07023	Replacement tip tool adapter for fiberglass poles	\$7.10
E	CM-R221054	Hose, pole, accessory hangers, large multi-purpose hangers hold vac hose, telepole, test kit, skimmer, brushes	\$24.00
F	CM-R221136	Pool pole adapter, one piece with 2 sets of brass wing nuts and bolts	\$10.90
G	CM-R221046	Hose hangers, ABS with screws, Set of 2	\$11.10
H	CM-R221036	Pole hangers, ABS with screws, Set of 2	\$7.30
I	CM-R221042	Metal pole hangers, screws included, Set of 2	\$11.00

### Exercise Rails

Exercise Rails may be used as wall rails for additional stability for

persons entering pools, showers, locker rooms, hallways and ramps. They may also help in aiding the therapist or client by providing wall mounted support for warming and stretching exercises, as well as wall mounted in the pool for hydrotherapy sessions. Mounted with lag bolt and shield to maintain a 1-1/2" clear opening between rail and wall. 1.90" O.D. x .065" wall thickness. Heavier gauges and O.D.'s available upon request.

### Ladders

Thousands of ladder variations are available (i.e.: outside diameter, wall thickness, setback, # of ladder treads, etc...) from the leading manufacturers.

### Stair Rails

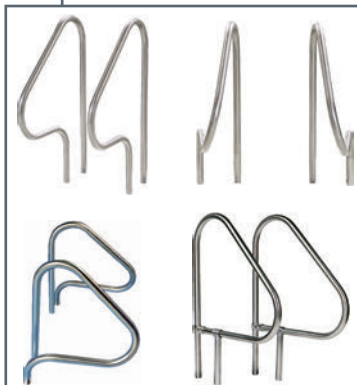

Stair Rails should be used on all pool entry steps as a necessary safety feature to allow safe entry and exit from the pool. T304 stainless steel is polished and buffed to a 320 grit finish. Stair rails come in either 2-bend or 3-bend (shown) configurations. Stock sizes are 48", 60" and 72" wide. Custom sizes are available.

### Deck Mounted Grab Rails

Deck Mounted Rails are intended for use with vinyl or fiberglass pools having pre molded steps. Anchorage of the rails to the deck is 8" on center and provides the stability needed without penetrating the molded steps. A variety of models are available to meet any pool or spa configuration.

### Ladder Grab Rails

Our extensive line-up of grab rails from the leading manufacturers guarantees we've got a product to meet your needs and budget. Give us a call at 610-269-2062 and we'll be happy to assist you in selecting the best product for your facility.

ANC-58316	Wall / Cup Anchor, 4" Dia, Stainless Steel, Removable Eye Bolt	\$221.00

## FUN AND GAMES

### Pool Climbing Walls

#### Climb, Splash, Repeat.

What's more fun than the challenge of pushing yourself to climb to the top of a wall... the rewarding splash back down into the pool afterwards!

Kersplash pool climbing walls are made by the experts. A team of climbers and aquatics professionals have put together this top-of-the line product. Made with 100% stainless steel, Kersplash was designed to outlast in harsh indoor and outdoor aquatic settings. The stainless steel is passivated and coated with Spectra-Shield and the sturdy panels and hand holds are UV treated.

Kersplash brings together two great sports, swimming and climbing. Both climbing and swimming increase fitness levels through development of strength, coordination, cardiovascular endurance and muscle endurance. Kersplash also provides participants with positive risk taking and creative problem solving.

**BUT, best of all, it's a SPLASH!**

### Basketball

Our basketball hoops have a regulation-size, stainless steel frame designed to fit into Paragon's Quickset anchors. The unit can be installed using new anchors, included with the purchase of the hoop, or it can be

used in existing starting platform anchors. Easily removed from anchors without tools for storage or location change.

The backboard is constructed of 1/2" thick clear acrylic which helps eliminate blind spots in the pool.

Order one of our 6 standard sizes or if you require a special configuration, provide the Rim Height and Anchor Setback dimensions to have one custom-built to fit your existing anchors and pool profile.

CODE	DESCRIPTION	PRICE
PGN-2700#	Basketball w/ Anchor	\$2,600.00

## Solenoid Valves

Several different sizes of solenoid valves are in stock and ready to ship. Slow closing valves prevent water hammer.

VLV-SOLNC-.75	3/4" Normally Closing Brass Solenoid Valve, 110V	\$160.00
VLV-SOLSC-.75	3/4" Slow Closing Brass Solenoid Valve, 110V	\$290.00
VLV-SOLSC-1	1" Slow Closing Brass Solenoid Valve, 110V	\$350.00
VLV-SOLSC-1.5	1.5" Slow Closing Brass Solenoid Valve, 110V	\$475.00

## Butterfly Valves

### Praher Valves

The Praher K4 butterfly valve provides excellent flowrates and features a glass filled polypropylene body rated to withstand temperatures up to 250-degrees. The handle has multiple valve position locks for fine flow control and resists high torque loads.

Lever, gear, electric or pneumatic operators available.

CODE	DESCRIPTION	PRICE
VLV-PRAHER-03	3" Praher Lever Butterfly Valve	\$391.00
VLV-PRAHER-04	4" Praher Lever Butterfly Valve	\$425.00
VLV-PRAHER-06	6" Praher Lever Butterfly Valve	\$675.00
VLV-PRAHER-08	8" Praher Lever Butterfly Valve	\$901.00

### Dominion Valves

These butterfly valves have become the leader in the aquatics industry. Lightweight, marine grade cast aluminum bodies, Rilsan coated surfaces and attractive pricing make Dominion an ideal solution for commercial facilities. Available in sizes 2" - 12"

Lever, gear, electric or pneumatic operators available.

CODE	DESCRIPTION	PRICE
VLV-DOMINION 2	2" Dominion Lever Butterfly Valve	\$313.00
VLV-DOMINION 3	3" Dominion Lever Butterfly Valve	\$343.00
VLV-DOMINION 4	4" Dominion Lever Butterfly Valve	\$462.00
VLV-DOMINION 6	6" Dominion Lever Butterfly Valve	\$598.00
VLV-DOMINION 8	8" Dominion Lever Butterfly Valve	\$699.00

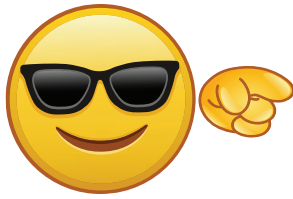

## True Union Ball Valves

Heavy duty true union ball valves.

Note: For pipe sizes larger than 2" we don't recommend the use of ball valves. Please see our selection of butterfly valves.

CODE	DESCRIPTION	PRICE
VLV-TUS-.5"	1/2" PVC TUBV (Socket)	\$23.60
VLV-TUS-.75"	3/4" PVC TUBV (Socket)	\$24.80
